

Quality Policy

Cutler and Woolf are committed to supplying all our customers with products that meet their expected specification and performance requirements, consistently providing them with good value and on time delivery.

We will fulfil this objective by operating a business management system that fully meets the requirements of ISO 9001; 2015 and ensure investment in training, equipment and health & safety.

Objectives are assessed in the management review process throughout the year to affirm their ongoing relevance to the operation and to drive for continual improvement.

All operational managers have responsibility to ensure compliance with procedures and related controls under their areas of jurisdiction.

Steve Catlin

Managing Director

Cutler & Woolf (Steel) Ltd
